Knows and understands what a good work ethic is and why this is important to enhance a business.

Knows and understands the importance of sustainable practices.

Knows and understands that accuracy is important for record keeping purposes and sustainable business models.

Knows and understands the importance of taking care of business equipment.

Works in a lean and effective manner to increase financial sustainability.

Environment

Competency **Supports a successful business by ensuring the efficient use of water that enhances the quality of production, the health of humans and animals and environmental benefits**

Follows plans for accurate applications of all inputs to ensure that water pollution is avoided.

Identifies the main activities that may create a risk to water quality.

Complies with any legal requirements for water use.

Knows and understands how the business's waste water and effluent system works and ensures good practice on-business.

Assists with identification of areas where water could be saved.

Job title

Tractor driver

Identifies and reports leaks and implements emergency procedures to avoid wasting water.

Implements, mechanisms and techniques for collecting clean water.

Identifies areas where water is lying on the surface, poaching problems are evident and erosion has occurred.

Complies with the legislative requirements for water use.

Follows relevant management practices to ensure soil erosion does not occur.

Follows an irrigation schedule to enhance crop growth and yield.

Recognises areas prone to flooding and drought.

Knows and understands key points of legislation regarding water usage.

Knows and understands that pollution risk areas are a threat to water quality.

Identifies the pollution risks that may impair water quality.

Knows and understands that soil erosion can be reduced through soil management techniques.

Quality and Control

Competency **Supports a successful business through application of knowledge and skills to control the quality of business production.**

Knows and understands the procedures and controls to ensure all products meet the standards as stipulated in the Quality Assurance Manual and Food Safety Field Operations Manual.

Knows and understands customer requirements and their impacts on crop production.

Knows and understands the importance of traceability.

Knows and understands the procedures and controls to ensure all products meet the standards as stipulated in the Quality Assurance Manual and Food Safety Field Operations Manual.

Ensures all products meet the standards as stipulated in the Quality Assurance Manual and are delivered in a timely manner.

Knows and understands the importance of traceability.

Knows and understands customer requirements and their impacts on farm produce production.

Financial Management

Competency **Supports a successful business through knowledge and skills which ensure financial sustainability.**

Knows and understands benchmarking and key pieces of data for the business.

Knows and understands, in general terms, business income and expenses.

Knows and understands the costs associated with jobs on-business.

Knows and understands benchmarking and key pieces of data for the business.

Knows and understands the costs associated with jobs on-business.

Develops and monitors own personal budgets and finances to achieve financial targets.

Knows and understands, in general terms, business income and expenses.

Environment and Soil/ Growing Media

Competency **Supports a successful enterprise through knowledge and skills that enhance sustainability of the business and the environment through careful management of the soil.**

Knows and understands the relevance of appropriate land drainage.

Carries out remedial drainage work, as required and instructed.

Job title

Tractor driver

Complies with the regulations governing the control of pollution from relevant facilities and materials.

Prevents contamination of soil by disposing of waste products in line with legislation (waste regulations).

Keeps up-to-date records for the nutrient management plan.

Ensures the appropriate range of equipment is available and in good working order.

Complies with the business's nutrient management plan.

Sets up, calibrates and tests the range of equipment available, to ensure its in good and safe working order.

Knows and understands the relevance of appropriate land drainage.

Follows the management programme for growing crops

Environment

Competency

Supports a successful productive and sustainable business through knowledge and skills which promote good environmental practice.

Complies with requirements and consent conditions relating to pollution control.

Applies precision business techniques to optimise nitrogen fertiliser inputs to reduce whole business energy usage.

Assists with the monitoring of energy use and cost.

Recycles waste where possible and dispose of non-recyclable waste in accordance with best practice.

Ensures the optimal use of valuable by-products and separate clean and dirty water to minimise pollution risks.

Ensures waste is minimised and resources are used efficiently.

Fosters good relations with the local community to communicate the benefits of Integrated Farm Management (IFM).

Complies with Duty of Care and other waste regulations.

Complies with the regulations around plastic waste (Reduce, Reuse, Recycle).

Works safely and effectively to reduce environmental impacts.

Follows plans and adheres to targets to reduce emissions and energy use.

Undertakes hedge cutting and ditch clearing to minimise the impact on flora and fauna.

Knows and understands the implications of the duty of care for EC Waste Framework Directive, Hazardous Waste regulations.

Knows and understands the impact of key pollutants on the environment, animal and human health, and local communities.

Knows and understands the legislation with regard to odour and the impact on neighbours.

Knows and understands the impact of Greenhouse Gas Emissions (GHGs) on climate change and the government agenda (Net Zero).

Business Sustainability

Competency

Supports and enhances a successful business through the use of knowledge and skills following strategic and operational plans.

Knows and understands the value of accurate record keeping and effectively maintains records for which they have responsibility.

Identifies and acts on opportunities for operational improvement.

Knows and understands how their role and actions contribute to the efficiency of how the business operates.

Knows and understands appropriate record keeping requirements as per business policy.

Knows and understands how to access business policies and procedures, and can effectively follow these as directed.

Assists in improving the performance of the production system through good communication and operational best practice.

Knows and understands how their role and actions contribute to the efficiency of how the business operates.

Knows and understands the value of accurate record keeping and effectively maintains records for which they have responsibility.

Knows and understands appropriate record keeping requirements as per business policy.

Knows and understands how to access business policies and procedures, and can effectively follow these as directed.

Harvest

Competency

Supports successful crop production through knowledge and skills which ensure successful harvesting and storage of crops at post-harvest.

Knows and understands the requirements of the pre-defined sales programme and communicates any discrepancies to their line/business manager.

Carries out harvest operations, understanding quality and quantity expectations.

Ensures efficient production through modelling best practice and following business procedures.

Recognise when crop is ready for harvest.

Prepares and calibrates machines for harvest.

Knows and understands health and safety requirements related to vehicles on roads.

Stores crops in suitable conditions to maintain quality.

Assesses soil conditions before crop is harvested.

Knows and understands key points regarding health and safety requirements related to hygiene.

Knows and understands chemical and mechanical techniques for maintaining crop quality.

Knows and understands key points of relevant conservation requirements.

Knows and understands key points of relevant conservation requirements.

Job title

Tractor driver

Works independently under exceptional circumstances such as equipment breakdown, inclement weather etc.

Knows and understands health and safety requirements related to vehicles on roads.

Knows and understands key points regarding health and safety requirements related to hygiene.

Knows and understands chemical and mechanical techniques for maintaining crop quality.

Knows and understands the requirements of the pre-defined sales programme and communicates any discrepancies to their line/business manager.

Plant Health and Productivity

Competency

Supports successful crop production through knowledge and skills which maximise productivity and ensure plant health.

Knows and understands the impact of key weeds, pests and diseases on the crop

Knows and understands crop physiology and development process and how they affect crop management.

Complies with legal, customer and employment procedures and Codes of Practice and commit to implementing them in the production of crops.

Ensures optimum digestate application as per agreed rates.

Ensures optimum fertiliser application as per agreed rates.

Ensures optimum organic manure application as per agreed rates.

Identifies key weeds, pests and diseases and reports their presence.

Ensures crops are grown to the required standards and specification, continuity, quality, volume and yield and meet the min standard requirements including relevant crop protocols and assurance schemes.

Knows and understands crop health and nutrition and is aware of relevant legislation and complies with them

Knows and understands crop irrigation needs and how this affects yield.

Knows and understands relevant legislation and the basic principles of Integrated Pest Management and its practical application.

Operates the irrigation equipment effectively through agreed procedures.

Knows and understands legal, customer and employment procedures and Codes of Practice and commits to implementing them in the production of crops.

Knows and understands relevant legislation and the basic principles of Integrated Pest Management and its practical application.

Knows and understands crop health and nutrition and is aware of relevant legislation and complies with them

Knows and understands the impact of key weeds, pests and diseases on the crop

Knows and understands crop physiology and development process and how they affect crop management.

Knows and understands legal, customer and employment procedures and Codes of Practice and commits to implementing them in the production of crops.

Knows and understands crop irrigation needs and how this affects yield.

Technology, Machinery and Vehicles

Competency

Supports successful technical operations through knowledge and skills of technology, machinery, vehicles and structures that enhances production and business viability.

Holds a current and relevant driver's licence.

Demonstrates appropriate instruction, training and certificates for driving vehicles used on farm.

Wears a suitable helmet when using an ATV.

Develops strategies to manage personal and external factors that may contribute to injury at work.

Holds certificates or undertakes training with other farm machinery applicable to role.

Knows and understands the business security process.

Applies the value of collecting good quality data and how it can be used to make decisions.

Ensures familiarity with farm layout.

Holds certificates where needed and has undergone appropriate training to operate storage, warehouse and packhouse machinery used on farm.

Demonstrates familiarity with range of other technologies and aids on the farm.

Identifies problems, faults and inconsistencies requiring action.

Applies the value of collecting good quality data and how it can be used to make decisions.

Demonstrates confidence linking technology with implements, computers, smartphones and apps, etc and collect data to improve efficiency and accuracy of operations.

Demonstrates confidence using computers, smartphones, and apps, and uses technology-based systems to collect data to improve the quality of the workplace where applicable.

Demonstrates experience using computers, smartphones, and apps.

Assists with erecting, maintaining and repairing electric and non-electric fences, walls and other boundaries and field separation features, as directed.

Uses and looks after fencing tools effectively.

Knows and understands basic vehicle maintenance and operation, including setting up and calibration to achieve required results.

Ensures familiarity with key locations.

Ensures responsible driving giving due care, respect and attention to others on site and on roads.

Follows effective building management practices as per business policy and procedures.

Knows and understands how to safely operate a light utility vehicle (LUV), with trailed equipment or a mounted load, on flat or hilly terrain.

Checks and drives a basic wheeled tractor with an attached implement on flat or hilly terrain.

Knows the importance technology plays within the industry and the opportunities available to them to use technology.

Knows and understands how to operate machinery safely.

Knows and understands how to select correct fuel when operating vehicles and machinery.

Knows and understands how to adapt their driving giving due care, respect and attention to conditions (slope, wet, etc), risks (overhead power cables, low buildings etc) and when towing loads.

Knows and understands how to use technology-based systems to collect data to improve efficiency of operations.

Knows and understands the business policy around use of mobile and smart phones for business and personal use at work.

Knows and understands the value of collecting good quality data and how it can be used to make decisions.

Knows and understands how electronic systems work on-farm and what their role is.

Job title

Tractor driver

Knows the importance technology plays within the industry and the opportunities available to them to use technology.

Knows and understands how to use technology-based systems to collect data to improve efficiency of operations.

Knows and understands how electronic systems work on-farm and what their role is.

Knows and understands which driving licences are needed and when the renewal period is due, relevant to the job.

Knows and understands basic vehicle maintenance and operation, including setting up and calibration to achieve required results.

Knows and understands the business policy around use of mobile and smart phones for business and personal use at work.

Knows and understands the value of collecting good quality data and how it can be used to make decisions.

Knows and understands how to safely operate a light utility vehicle (LUV), with trailed equipment or a mounted load, on flat or hilly terrain.

Knows and understands how to select correct fuel when operating vehicles and machinery.

Knows and understands which driving licences are needed and when the renewal period is due, relevant to the job.

Knows and understands how to operate machinery safely.

Knows and understands the business security process.

Environment

Competency **Supports successful technical operations with knowledge and skills which ensures sustainable land use that enhances business and the environment.**

Knows and understands the need for efficient use of water.

Knows and understands legal requirements around water use, and reports any issues to senior staff.

Knows and understands that no stock are allowed in or around waterways, and reports any stock in areas they should not be to senior staff.

Knows and understands how to dispose of and tidy up farm waste.

Knows and understands the key points about the farm environment plan and how they contribute to it.

Knows and understands the role nutrients play in farm systems, and the importance of good nutrient management.

Knows and understands the importance of good management practice around land cultivation, and how their actions impact on the environment.

Assists with water-related tasks.

Recruitment and Retention

Competency **Supports the business through use of knowledge and skills to fulfil employment obligations and plan career development.**

Knows and understands own rights around work time and workload, and to a reasonable work/life balance.

Job title

Tractor driver

Abides by all employment obligations including specific responsibilities, accommodation agreements, minimum wage requirements, records of holidays and leave, hours worked and wages paid.

Knows and understands own rights around employment agreements, minimum wage requirements, and formal accommodation agreements (where applicable), and knows how to communicate any issues to superiors.

Knows and understands the true hourly rate they are being paid, and that remuneration is linked to their skills and responsibilities.

Knows and understands all employment obligations including specific responsibilities, accommodation agreements, minimum wage requirements, records of holidays and leave, hours worked and wages paid.

Knows and understands own rights around work time and workload, and to a reasonable work/life balance.

Knows and understands their own training requirements for ongoing self-development, and to achieve their goals.

Knows and understands own rights around employment agreements, minimum wage requirements, and formal accommodation agreements (where applicable), and knows how to communicate any issues to superiors.

Knows and understands all employment obligations including specific responsibilities, accommodation agreements, minimum wage requirements, records of holidays and leave, hours worked and wages paid.

Ensures accurate records are kept for leave, hours worked, and wages paid.

Knows and understands the true hourly rate they are being paid, and that remuneration is linked to their skills and responsibilities.

Focuses on their career development goals, and has a clear plan to achieve this.

Knows and understands their own training requirements for ongoing self-development, and to achieve their goals.

Waste Management

Competency

Supports the management of production through knowledge and skills that ensure the effective management of waste, in line with legal requirements

Knows and understands farm procedure in relation to disposal of used disinfectants,

Knows and understands the legal requirements of handling and storing both solid and liquid farm manures and effluent, and how effluent can impact the environment.

Knows and understands how liquid farm manure and effluent systems operate, and knows their responsibilities and what happens if problems occur.

Undertakes activities with both solid and liquid farm manures and effluents in line with legislation and business policies and procedures as directed.

Complies with the regulations governing the control of pollution from relevant facilities and materials.

Prevents contamination of soil by disposing of waste products in line with legislation (waste regulations).

Knows and understands environmental protection practices of the system used for handling and storing both solid and liquid farm manures and effluents.
